EDUCATION

Keshav Memorial Institute of Technology

Bachelor of Technology in Information Technology

Hyderabad

Nov 2022–Present

Ratna Junior College

MPC

Hyderabad

2020–2022

Bhavan's Sri Rama Krishna Vidyalaya

CBSE

Hyderabad

2019–2020

PROJECTS

Agentic AI for Autonomous Research and Knowledge Discovery

Python, LLMs, Web Scraping, Vector Databases

September 2025 – January 2026

- Built an agentic AI system capable of autonomous research and knowledge synthesis from multiple data sources.
- Implemented multi-step reasoning agents that collect, analyze, and summarize information automatically.
- Designed a pipeline for web scraping, document processing, and semantic search using embeddings.

AI-Enhanced Static Analysis for Security Vulnerability Detection

Python, AST Parsing, LLMs, Security Analysis

January 2025 – Ongoing

- Designed an AI-assisted static code analysis pipeline to detect potential security vulnerabilities in source code.
- Implemented AST parsing and pattern analysis to identify insecure coding patterns such as injection risks and unsafe memory operations.
- Integrated LLM-based reasoning to enhance vulnerability detection beyond traditional rule-based scanners.
- Used AI tools such as ChatGPT and Copilot for debugging, architecture ideation, and documentation.
- Leveraged LLM-based workflows for code generation, research automation, and intelligent data analysis.

Fake Currency Detection System | *Python, Image Processing*

June 2024 – October 2024

- Counterfeit currency poses a significant threat to financial systems, leading to economic losses and security risks.
- Traditional methods of counterfeit detection are often manual, time-consuming, and prone to human error.
- There is a pressing need for automated solutions that can efficiently and accurately identify fake currency to safeguard financial transactions.

EXPERIENCE

Full Stack Developer Intern (Remote)

Wise Mango Inc

May 2025 – June 2025

India

- Designed RESTful backend services using Node.js and Express, supporting scalable data workflows and API integrations.
- Implemented MongoDB schema design and indexing strategies for efficient data storage and retrieval.
- Collaborated with designers and developers to deliver production-ready features.

EXTRACURRICULAR

Street Cause - KMIT

Treasurer and Alumni Relations Lead

Hyderabad

- Financial Management: Overseeing the budgeting, tracking donations, and managing expenses to ensure the smooth execution of our projects.
- Alumni Engagement: Building and nurturing strong relationships with our alumni network, organizing events, and leveraging their support to further our cause.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript, SQL

Core Computer Science: Data Structures, Algorithms, Object-Oriented Programming

Backend Development: Node.js, Express.js, REST APIs

AI / Machine Learning: LLMs, Agentic AI Systems, Static Code Analysis, Vector Databases

Databases: MongoDB, SQL

Tools and Platforms: Git, Docker, Google Cloud Platform, VS Code, IntelliJ
